Dear Mrs. Goff:

On August 12, 1997, a field compliance inspection was conducted for Alvin Harris's notice, UTU-072858, which includes unpatented mining claims UMC #'s 355657-69, located in Section 10, T. 19 S., R. 14 W.. This notice was accepted by our office on December 12, 1994, under the 43 CFR 3809 regulations for surface management. Based on our inspection, we have determined that no surface disturbance related to the notice has occurred. As we have been informed that Alvin Harris, who submitted this notice, is deceased, this notice case file is closed.

At the request of Gary Harris, we are enclosing copies of recent letters to David Hodson, a representative of Mining Specialities. Mr. Harris requested that we do so because you are "a major owner in the claims since 1994". However, our records indicate that the In-Focus claims lapsed in 1996. You do not need claims to mine on public land, However if you restart any mining related activity that causes surface disturbance, then you must re-notify this office at least 15 days prior to the start up of your operations.

Thank you for your support in proper management of public lands.

Sincerely,

Rex Rowley
Area Manager
